

Hello I'm Sarata Ceesay currently a student of the university of The Gambia majoring political science. I will like to give my own part of the story as to how the Denmark DK project has helped me in getting to the level I'm today .

I was in grade 3 (primary level)when I got enrolled into the sponsorship program .The program has helped me in numerous ways which includes 1.the payment of both my school and study fees .which has helped reduce the burden on my mum ,because she was the breadwinner of the family . But with my enrollment in the sponsorship program I was able to attend my study classes like my colleagues and was able to perform extremely well in my academia with very good results which my family and my sponsors was proud of .

2.every year when the sponsors are coming ,they will come with food items which includes Rice,Oil,Sugar ,Onions, Jumbo,and school material like uniforms ,bags ,shoes etc which I also benefited from because at the time my mum couldn't provide all these at a time because she has other responsibilities to my siblings .So the sponsor also help in reducing my family stress and the food items provided goes a long way in helping my family .

3.As part of the benefits I also benefited some money which was given to me as lunch when going to school so that when hungry I will be able to buy food at school not to stay hungry .

The sponsorship program has really change my life because it was through it I was able to finished my education from:

primary,upper and high school without any financial challenges because they made sure they paid our school bills on time and made school and education an easy access

Im thankful that today in Siffoe ,many young girls like me are allowed to go to school and learn like boys because of the support given by the organization

Im proud to say that I have achieved my first goal in life which is going to tertiary education Thanks to my sponsor Karsten Vestergaard for making this journey smooth for me .I and my family will forever be grateful .

Thanks to Lilian ,Edith and all other members for the job well done they have been doing in bettering the lives of people in siffoe .I pray and hope more sponsors comes in and help the children because we are the future leaders of tomorrow and education is the only weapon we can use to change the world 🌍 .

Long live the organization ❤️❤️❤️❤️❤️ DKDKDKDKDKDKDKDKDKDK
